

MEDIA RELEASE

WIN Television begins Digital Television Transmission in the Bunbury region, South West WA

Please be advised that WIN Television is scheduled to commence digital television transmissions in the greater Bunbury region. Please refer to the table below for commencement dates.

Area Served	Bunbury
Site Name	Mt Lennard
Testing Date	
From	21/07/2011
Commencement Date	28/07/2011
Maximum ERP	300kW
Antenna Height	180M
ACMA Site ID	27867
Channel	39
Frequency	606.5MHz
Polarization	Horizontal
Call Sign	WOW 39 Bunbury

During the test period, transmissions may vary in power and/or duration while the system is being tested and any possible interference to existing services is being assessed.

As part of WIN's licence requirements, we are in the process of notifying users of radio frequency spectrum in the area including TV and Radio Broadcasters, Health Departments, Hospitals, ACMA, FTV and Local Councils.

Please consider this your notification.

Test transmissions may cause interference to radio communications equipment or television reception. In the unlikely event users of radio frequency spectrum or members of the public experience interference, please contact WIN Television on **08 9449 9999**, or write to:
